AVOID SUN
GLARE WITHOUT
NEEDING TO
BLOCK OUT
THE LIGHT

PICTURE YOUR IDEAL LIVING ROOM

It's your shared living space and your cosy retreat. So why not style it your way and finesse your vision with premium, made-to-measure S:CRAFT shutters?

Sit back, relax and take control... of your privacy, light levels and temperature. No space is out of the question, even tricky bay windows. Watch TV, free of sun glare. Choose from full-height, tier-on-tier, or café style shutters. Or partition open-plan living rooms with bi-fold shutters. Then stretch out on your sofa and admire the view. Your neighbours will be doing just that from the pavement!

SHUTTERS COMBINE PRIVACY
WITH ULTIMATE VERSATILITY

Bay windows look
stunning with shutters,
both from inside and out

COOK UP A NEW-LOOK KITCHEN

Kitchens are where tummies rumble and conversation flows. So why not add the seasoned style that only S:CRAFT shutters can bring?

Flood it with light during the day; keep it cosy and private at night. Choose from a versatile range, made to measure any space. Easily open windows to let off some steam... the Java Range is ideal for humid kitchens as it's 100% waterproof. And if the kids leave their well-intentioned mark, it's good to know S:CRAFT shutters can be cleaned in a jiffy too!

EASY TO WIPE
AND KEEP CLEAN

TO COMPLEMENT
YOUR DÉCOR
AND WINDOWS

CONJURE UP YOUR DREAM CONSERVATORY

Conservatories are often thought of as ‘bringing the outdoors indoors’. So why not take year-round control of your garden view with a practical, stunning style statement?

S:CRAFT shutters allow you to stay snug and warm in the winter months, and cool as a cucumber during summer. Their robust manufacturing means panels are unlikely to bow or warp. Mortise and tenon joints make them incredibly strong, withstanding movement and temperature fluctuation. Walls, ceilings and French doors are all in the frame, creating the look you want, from inside and out.

SHUTTERS TURN A CONSERVATORY
INTO A YEAR-ROUND SPACE

Shutters can also be used
for French doors as well as
conservatory walls

VISUALISE A BRIGHTER MORE BEAUTIFUL BATHROOM

It's easier to do with S:CRAFT shutters.

That's because not only can you create an elegant, inviting space, but you can also look forward to ultimate privacy without shutting out the light. Split-level panels give you privacy at standing height and full light above. They're really robust and easy to clean and maintain too, much more so than blinds. ABS shutters are 100% waterproof and exceptionally strong. And unlike blinds, with shutters there will be none of the knocking or fluttering in the breeze to spoil that perfectly relaxing 'you' time.

DREAM UP A BLISSFUL NEW BEDROOM

Your bedroom is your relaxing retreat after a busy day. One way to make sure you wake with a smile is to open your eyes to S:CRAFT shutters.

Shutters are the ultimate window covering for privacy, light and temperature control. You can even integrate with a room darkening blind option to minimise light seepage, or combine them with a curtain or voile to soften the look. Because shutters are cordless, they are safer for children's bedrooms. And why not complement your window shutters with S:CRAFT shutters fitted as by-pass wardrobe doors?

match the most creative
of imaginations

WHY CHOOSE S:CRAFT SHUTTERS?

Choose from the widest range of styles, colours and premium materials, from entry-level MDF to FSC® certified White Teak.

Made-to-measure S:CRAFT shutters are produced in the world's largest shutter factory with state-of-the-art facilities. High quality layers of paint or stain are applied, including a final UV layer to protect from fading.

IMAGINE:

A stylish new look

S:CRAFT shutters are more than just a window covering. They are a lifestyle feature, designed to function around your needs, exactly as you'd pictured it.

IMAGINE:

Ultimate light control

Each panel can be independently adjusted to temper the light and provide outstanding light control.

IMAGINE:

Total privacy, when it suits you

S:CRAFT shutter panels can be divided into independently controlled sections allowing natural light in but keeping unwelcome attention out.

IMAGINE:

The peace and quiet

Adding an additional layer to your glazing, S:CRAFT shutters not only block out light but help reduce noise levels too, making them ideal for homes near busy roads.

IMAGINE:

Any shape fitted perfectly

S:CRAFT shutters can be manufactured to suit all window shapes, no matter how curved or angled, small or large.

IMAGINE:

Being more insulated and economical

S:CRAFT shutters not only keep you cool during the summer, but help retain heat during the winter months.

IMAGINE:

Low maintenance and fewer 'bless you!'

S:CRAFT shutters are quick and easy to clean and offer a virtually maintenance-free existence - excellent for dust allergy sufferers!

WHICH SHUTTER STYLE?

Shutters are the most versatile of window coverings, providing a style solution to suit all properties. No matter the size or shape of your windows, we're confident there is an S:CRAFT shutter to match.

STYLE: Full height

Our most popular style that creates a real sense of scale, creating clean lines from top to bottom. Simple and elegant.

STYLE: Tier-on-tier

By operating the top and bottom panels independently, you have ultimate control over the light, the view and your privacy.

STYLE: Café style

Add a little continental chic to your street-facing rooms. By only covering the bottom half of your windows, you can combine privacy with plenty of natural light.

STYLE: Track & Doors

The stability of a track enables you to create stunning room dividers and wardrobe doors, combining multiple panels in one smooth motion. Choose between bi-fold or by-pass.

STYLE: Solid Panel

For a more traditional finish to your windows, solid panels block out the light when closed and provide an additional barrier to the outside elements. A classic look for period properties.

STYLE: Bay Windows

Beautiful square and Victorian bay windows can be transformed by made-to-measure full height, tier-on-tier or café style S:CRAFT shutters.

STYLE: French Door

Plantation shutters aren't just for windows! S:CRAFT shutters are completely bespoke so we are able to create cut-outs around your door handles. Fantastic for conservatories.

SHAPE:

Angled

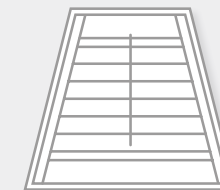

Blinds and curtains just don't work for certain shape windows. Angled spaces can be transformed with S:CRAFT shutters, in a variety of materials.

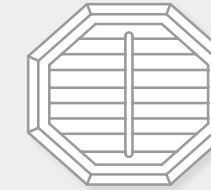

Angled

Triangle

Trapezoid

Octagon

S:CRAFT manufacturing

No matter what shape or size, material or colour, an attention to detail and state-of-the-art machinery are used in the manufacturing process ensuring your peace of mind about all S:CRAFT products.

Just look out for the quality mark on the shutter frame, so you know you have received a genuine product. S:CRAFT shutters carry a 3-year manufacturer's warranty against structural defects, hardware and colourfastness.

PREMIUM HARDWOOD SHUTTER MATERIALS

During the manufacturing process, the wood used for every shutter is specially stored, dried, and treated to minimise the risk of warping and twisting which can occur in natural materials. The premium hardwood ranges are lighter than shutters crafted from MDF, and provide a wide range of colour and stain choices not available in the ABS Java range.

RANGE:

Sumatra

Our Sumatra range is made from the finest quality FSC® certified White Teak from the Solomon Islands. It has a beautiful tight uniform wood grain and offers the widest range of options.

RANGE:

Fiji

Stained Fiji shutters are made from premium Paulownia, a sustainable hardwood harvested every 7-10 years. They have a distinct grain, ideal if you like natural textures, and come in a wide range of stains and paint colours.

RANGE:

Cuba

Cuba is our entry level hardwood range. They are made from premium robust MDF frames but feature lightweight hardwood panels and louvres.

S-CRAFT.CO.UK
to learn more

RANGE:

Java

Java is 100% waterproof and very strong, made from sturdy ABS. Ideal for high humidity rooms such as bathrooms and kitchens, as well as children's play areas, ABS is the same material which motorcycle helmets are made from.

ABS & MDF SHUTTER MATERIALS

For busy family homes, the robust ABS and MDF ranges are ideal for standing up to daily wear and tear. Whether you are looking for a waterproof way to control privacy and light, or a hardwearing solution for all the family, then ABS and MDF could be good options to consider. Available in a more limited colour palette than our hardwood ranges.

RANGE:

Bermuda

Bermuda is a hybrid of Java and Antigua, featuring robust MDF frames and panels with hollow lighter ABS louvres. It comes in a wider colour palette and more closely resembles the finish of a painted hardwood shutter.

RANGE:

Antigua

Antigua is our entry level shutter solution made from a high quality MDF covered in a patented polymer coating. It is robust and hardwearing.

WHY CHOOSE S:CRAFT BLINDS?

Complementing our range of premium shutters, S:CRAFT blinds are distinctly different, but equally versatile and beautifully finished. Whether crafted from premium Paulownia hardwood, or insulating fabric with honeycomb structure, made-to-measure blinds are available in a wide range of colours to suit a variety of interior designs.

SOLUTION:

PURE Wood™ Venetian

Crafted from the sustainable Paulownia hardwood, our range of stylish Venetian blinds are designed for providing privacy, while allowing natural light to filter in. The PURE Wood™ range includes a number of safety features as standard in line with current BBSA guidelines.

SOLUTION:

PURE Cell™ Honeycomb

Great for skylights, there are several fabric options in the PURE Cell™ range. Semi-opaque blinds let in a warm glow, while the room darkening option virtually eliminates exterior light when closed. Easy to adjust and control, the honeycomb structure also makes PURE Cell™ energy efficient, effectively insulating your home when closed.

ENERGY
EFFICIENT

Available in our
SUMATRA, FIJI
& ANTIGUA
RANGES

SOLUTION:

Room Darkening

Ideal for bedrooms, nurseries and media rooms, the room darkening offering from S:CRAFT is a unique combination of shutters with an integrated blind.

Virtually blocking out all external light, the blind sits snugly in its own channel behind the shutter helping you sleep soundly, whether day or night.

If you need to sleep in the day, or streetlights are keeping you awake at night, then the room darkening system is the solution to your bad dreams.

How to Order

S:CRAFT shutters and blinds are only available via selected independent specialists and retailers across the UK. As a wholesaler, we do not sell directly to the public.
